Abstract: The Occupational Safety and Health Review Commission (OSHRC) published a rule in the **Federal Register** dated August 14, 1995 establishing the "E-Z Trial" program. The rule was subsequently amended to eliminate the sunset provisions in the original rule and to revise the procedural rules governing the "E-Z Trial" program effective July 31, 1997. We are evaluating the program as modified effective July 31, 1997. The evaluation will involve surveying employers and employer representatives regarding their satisfaction with the fairness and efficiency of the process. The evaluation will also analyze data on the rate at which "E-Z Trial" cases go to a hearing, and on the length and cost of hearings. Finally, the evaluation will study the cycle times of these cases as compared to those of conventional cases. Information will also be gathered from Occupational Safety and Health Administration (OSHA) staff and from the Solicitor of Labor.
